About Us

Dumoliz Services Ltd was founded in Nigeria in 2010 as a fully Nigerian-owned company. Managed by a team of highly skilled and experienced engineers and support staff, the company is dedicated to excellence in every project it undertakes.

With a proven track record, Dumoliz Services Ltd has successfully completed world-class projects for both local and multinational clients.

Specializing in Mechanical, Electrical, Instrumentation, and Corrosion services, the

company offers a comprehensive range of project capabilities, from specialized subcontract work to full design-and-build projects. The management and staff are committed to ensuring successful project delivery, maintaining strict adherence to QHSE standards and robust Project Controls.

Dumoliz Services Ltd boasts a solid, verifiable track record across all construction disciplines within the Oil, Gas, Engineering, Procurement, Construction, Commissioning, Operations, and Maintenance sectors.

Our Vision

Our vision is to be a world-class provider of exceptional services, driven by a shared commitment to excellence in everything we do.

Our Mission

Our mission is to consistently maintain our position as a top contender in every aspect of our services within the Oil & Gas industry, with an unwavering focus on quality and transparency.

What We Offer

Piping and pipe line installation (Land & Swamp)

Modification of Existing Modules

Erection of Prefabricated Systems & Assembly

Facility Upgrade & Improvement

Total Facility Managements

Routine Maintenance & Sand Blasting

Corrosion Control & Management

Supply of Safety Materials

Road Construction

Piping and Pipe Line Installation (Land & Swamp)

We are a leading provider of piping and pipeline installation services, specializing in both land and swamp environments. With years of experience in the industry, we deliver reliable, efficient, and high-quality pipeline solutions for oil, gas, and water transportation projects. Our skilled team utilizes advanced technology and strict safety

measures to ensure seamless installation, whether in challenging terrain or complex landscapes. Committed to excellence, we provide cost-effective and durable solutions, meeting the highest industry standards. Dumoliz is your trusted partner for safe and efficient pipeline installations.

Modification of Existing Modules

Dumoliz is a reputable construction company specializing in the modification of existing modules. With extensive experience in upgrading and enhancing modular structures, we provide efficient solutions tailored to meet the evolving needs of our clients.

Specialized Solutions for a Range of Projects

Our expertise spans a wide range of sectors, including industrial, commercial, and residential projects. We understand that each type of project has its unique challenges and requirements, which is why our expert team works closely with clients to deliver customized solutions.

Commitment to High-Quality Standards & Timely Execution

At Dumoliz, we take great pride

in our commitment to delivering high-quality results. Our team adheres to the latest industry standards and best practices, ensuring that all modifications meet or exceed the required codes and regulations. We understand the importance of completing projects on time and within budget, and we make it our mission to deliver exceptional work while respecting project deadlines. By prioritizing quality and efficiency, we ensure that each project not only meets immediate needs but also provides long-term value.

Trusted Partner for Reliable & Cost-Effective Modifications

When it comes to module modifications, Dumoliz stands out as your trusted partner for reliable and cost-effective solutions. We understand the complexities involved in upgrading existing structures and are committed to offering solutions that are both practical and economical. By leveraging our expertise and experience, we help clients make informed decisions that maximize their investment and minimize unnecessary costs.

Erection of Prefabricated Systems & Assembly

We specialize in the erection of prefabricated systems and assembly. We offer efficient and precise solutions for the installation of prefabricated structures, ensuring fast turnaround times without compromising on quality. Our experienced team manages every phase of the process, from site preparation to

final assembly, using advanced techniques and equipment to deliver durable and reliable systems. Whether for commercial, industrial, or residential projects, Dumoliz ensures that each assembly meets the highest standards of safety, functionality, and performance. Trust us for your next prefabricated system project.

Facility Upgrade & Improvement

With expertise in both pipeline enhancement and modular system refurbishment, we deliver tailored solutions that increase operational efficiency, extend the lifespan of assets, and meet evolving industry standards. Our skilled team ensures that all

upgrades are executed with precision, safety, and minimal disruption to ongoing operations. Whether upgrading existing pipelines or enhancing modular systems, Dumoliz is committed to delivering high-quality, cost-effective improvements for your facilities.

At Dumoliz, we specialize in the enhancement and optimization of pipeline systems, applying advanced technologies and industry-leading practices to achieve outstanding outcomes. Whether it's upgrading modular units to meet the latest regulatory standards, improving the performance and efficiency of existing infrastructure, or integrating cutting-edge innovations into the operational workflow, we take a comprehensive approach to every project.

Comprehensive Services Across the Life-cycle

Our services span the entire lifecycle, from initial design and strategic planning to seamless execution and final delivery. Each phase of the project is handled with precision and care, ensuring that all objectives are met with the highest standards of quality. We leverage the latest tools and methodologies to guarantee that every system we work on is not only up to code but also highly efficient and future-ready.

Commitment to Cost-Effectiveness, Safety, and Sustainability

We are deeply committed to ensuring that every project is not just a success in terms of meeting deadlines, but also optimized for cost-effectiveness, safety, and sustainability. By prioritizing these core values, Dumoliz ensures that every solution we deliver is both practical and enduring, helping clients achieve operational excellence.

Total Facility Managements

We provide Total Facility Management (TFM) solutions for pipelines and modular structures, ensuring the seamless operation, maintenance, and longevity of your assets. Our comprehensive service

suite is designed to optimize the performance and efficiency of your infrastructure, whether it's a complex pipeline system or modular structures used for temporary or permanent installations.

Pipeline Management services

This includes routine inspections and continuous monitoring to detect early signs of wear, preventing costly repairs and downtime. Our advanced leak detection methods identify vulnerabilities, while our cleaning and maintenance services ensure optimal flow by preventing blockages. Additionally, we implement corrosion prevention techniques, such as coatings and cathodic protection, to maintain the integrity and longevity of your pipelines.

Modular Structure Management

We handle the installation and setup of various modular units, ensuring they meet safety and quality standards. Our ongoing maintenance services cover everything from electrical systems to HVAC, keeping your structures in top condition. We also assist with space optimization and upgrades to accommodate changing needs, as well as energy efficiency improvements to reduce operational costs.

Integrated Asset Management

We focus on regular facility audits to improve performance and ensure compliance with industry regulations. We also help reduce operational costs through proactive strategies and extend the lifespan of your assets.

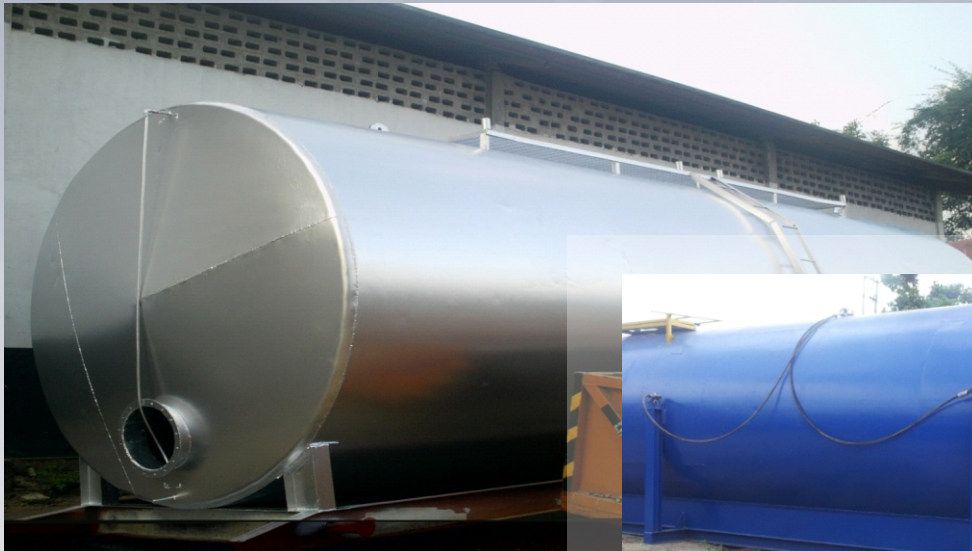

Emergency Response & Disaster Recovery services

We provide rapid response to mitigate risks and minimize damage. We also develop customized disaster recovery plans to ensure business continuity.

Routine Maintenance & Sand Blasting

We specialize in providing top-tier Routine Maintenance and Sand Blasting services for businesses across various industries. With years of expertise and a team of skilled professionals, we ensure that your equipment, machinery, and

surfaces remain in optimal condition, enhancing both safety and efficiency. Our commitment to quality, reliability, and customer satisfaction sets us apart as the go-to service provider for your needs.

Routine Maintenance Services

Keeping your machinery, equipment, and assets well-maintained is crucial to ensure their longevity and smooth operation. Our Routine Maintenance Services are designed to reduce downtime, prevent costly repairs, and maximize your operational efficiency.

We offer:

- i. Scheduled Inspections – Regular checks to identify wear and tear before it turns into a major issue.
- ii. Preventive Maintenance – Routine servicing to ensure that everything runs smoothly and avoids unexpected breakdowns.
- iii. Repairs and Replacements – Quick and efficient repairs and component replacements to keep your equipment functioning at peak performance.
- iv. System Clean-ups – Cleaning and optimizing machinery, reducing the risk of damage caused by accumulated debris and dirt.

Sand Blasting Services

Sand blasting is an essential part of surface preparation for many industries, including construction, automotive, manufacturing, and more. Our Sand Blasting Services provide efficient, high-quality cleaning, smoothing, and finishing to a variety of surfaces.

We offer:

- i. Surface Cleaning – Removal of rust, old paint, and other contaminants from surfaces, ensuring a clean and smooth finish.
- ii. Surface Preparation – Ideal for preparing surfaces for painting, coating, or other finishes. It enhances adhesion and improves the overall look and durability.
- iii. Custom Sand Blasting – Specialized sand blasting for unique applications, including delicate materials, intricate designs, or tough industrial projects.

Corrosion Control and Management

At Dumoliz, we specialize in Corrosion Control & Management to protect your assets and infrastructure. Our expert team offers cutting-edge solutions to prevent and manage corrosion, extending the life of your equipment and materials.

Our services include corrosion prevention through protective coatings, cathodic protection systems, and corrosion-resistant materials. We also offer real-time corrosion monitoring, including sensor installations, corrosion rate measurement, and regular condition assessments to detect potential issues before they cause significant

damage. We provide comprehensive corrosion management and mitigation strategies, including asset integrity management, failure analysis, and customized corrosion control plans tailored to your needs. For urgent situations, we offer emergency corrosion solutions to minimize downtime and protect your assets quickly.

Supply of Safety Materials

We provide top-quality safety materials to protect your workforce across industries like construction, manufacturing, oil & gas, and more. We offer a wide range of products designed to keep your team safe, supported by reliable delivery and expert customer service.

Our Products:

Personal Protective Equipment (PPE): We supply helmets, gloves, safety footwear, protective clothing, hearing and eye protection, and respiratory gear to safeguard your employees.

Fall Protection Equipment: Our fall protection solutions include harnesses, lanyards, lifelines, guardrails, and safety nets for

workers at height.

Fire Safety Materials: We offer fire extinguishers, fire blankets, smoke detectors, and emergency exit signs to ensure workplace safety in case of fire.

First Aid & Medical Supplies: Our first aid kits, defibrillators (AEDs), bandages, and eye wash stations help you respond effectively to injuries and

emergencies.

Signage & Labels: Warning, directional, and safety labels to clearly communicate hazards and emergency procedures.

Safety Tools & Equipment: We provide lockout/tagout systems, tool lanyards, and spill containment kits for enhanced safety and compliance.

Road Construction

We specialize in delivering high-quality Road Construction Services that ensure durability, safety, and efficiency for all types of roads and infrastructure projects. With years of experience and a skilled workforce, we provide comprehensive road construction solutions, from design and planning to execution and maintenance. Whether it's a residential street, highway, or industrial road, we are dedicated to building roads that stand the test of time.

Road Design & Planning

Successful road construction starts with careful planning. Our services include site analysis, assessing terrain, environmental factors, and infrastructure needs. We design customized road layouts, structural designs, and engineering specifications for safety and sustainability, while ensuring compliance with local regulations.

Excavation & Earthworks

Groundwork is vital for a solid foundation. Our services include land clearing, grading, soil stabilization, and precise excavation. We ensure proper drainage system installation, roadbed preparation, and utility installation for efficient construction.

Drainage & Stormwater Management

Effective drainage prevents flooding and road damage. We design and install stormwater systems like drains, culverts, and channels, along with flood control solutions. We also implement erosion control techniques to protect road integrity.

Road Maintenance & Repair

We offer Road Maintenance & Repair Services to extend infrastructure life. Services include routine inspections, pothole and crack repair, and resurfacing or rebuilding worn roads for long-lasting quality.

Quality, Health, Safety, & Environment (QHSE) Policy

We are committed to maintaining the highest standards of Quality, Health, Safety, and Environmental (QHSE) management across all our operations. Our goal is to ensure the well-being of our employees, clients, and stakeholders while minimizing our environmental impact and delivering superior quality services.

Commitment to Quality

We strive for excellence in all our products and services, continuously improving our processes to meet and exceed customer expectations. We adhere to internationally recognized quality management systems and industry best practices to ensure operational efficiency and customer satisfaction.

Health and Safety

The health and safety of our employees, contractors, and all stakeholders are our top priority. We are committed to preventing workplace incidents by fostering a strong safety culture, complying with relevant laws and regulations, and implementing rigorous risk assessments and control measures.

Environmental Responsibility

We recognize our responsibility to protect the environment and are dedicated to sustainable practices that minimize our ecological footprint. We actively seek to reduce waste, conserve resources, and prevent pollution while complying with all applicable environmental regulations.

Compliance and Continuous Improvement

We ensure full compliance with all applicable legal and regulatory requirements. Our management systems are regularly reviewed and updated to align with the latest industry standards and best practices. We encourage employee participation, training, and awareness to foster a proactive QHSE culture.

Employee Engagement

Every employee is responsible for upholding our QHSE principles. We provide training, resources, and a supportive environment to empower our workforce in contributing to a safer, healthier, and more sustainable workplace.
